Foreword

The American College of Physicians–American Society of Internal Medicine is pleased to publish *Iron Overload, Public Health, and Genetics*. The supplement presents and expands upon iron overload disease topics that were offered at the Centers for Disease Control and Prevention (CDC) conference held in Atlanta, Georgia, on 4–5 March 1997. This conference was held in conjunction with the meeting “Hereditary Hemochromatosis: Gene Discovery and Its Implications” on 3 March 1997, cosponsored by the National Human Genome Research Institute and CDC.
